### **Probability to Exceed 25mm**

- High to very high over most parts of Luzon and Mindanao;
- Moderate to high over the rest of the country.

GEFS Week-2 Exceedance Prob. > 50mm Valid: 20240612 - 20240618

### **Probability to Exceed 50mm**

- Moderate to high over Northern and Central Luzon and most of Mindanao;
- Low to moderate over the rest of the country.

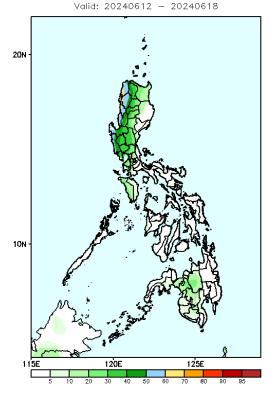

# **Exceedance Probability > 100/150/200 mm**

Week 2: Jun 12-18, 2024

GEFS Week-2 Exceedance Prob. > 100mm

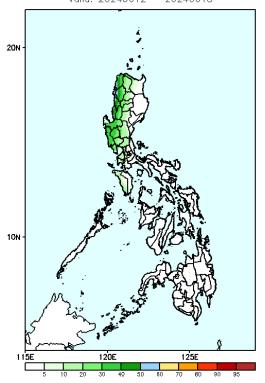

### **Probability to Exceed 100mm**

- Moderate to high over the western portion of Northern Luzon and Zambales;
- Low to moderate over the rest of the country.

GEFS Week-2 Exceedance Prob. > 150mm

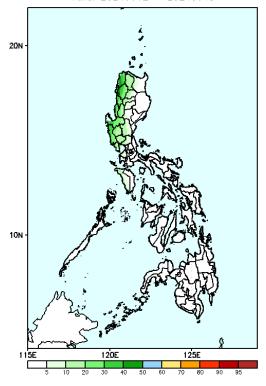

### **Probability to Exceed 150mm**

- Low to moderate over the western portion of Luzon;
- Low over the rest of the country.

Very high probability
High Probability
Moderate Probability
Low Probability

GEFS Week-2 Exceedance Prob. > 200mm Valid: 20240612 - 20240618

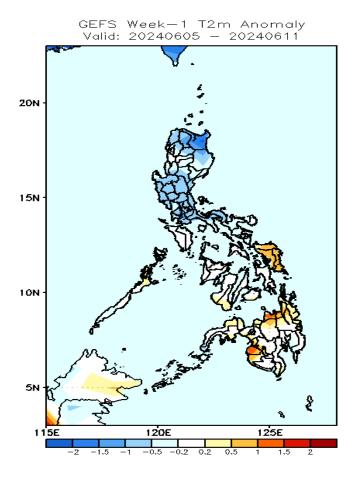

### **Probability to Exceed 200mm**

- Low to moderate over Ilocos Region and Zambales;
- Low over the rest of the country

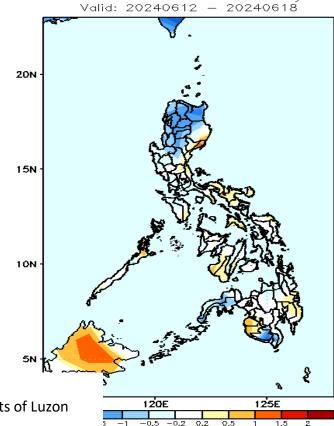

## **GEFS Week-1 & 2 Forecasts: T2m Anomaly**

Increase of rainfall of more than 100mm is expected in Ilocos Provinces; 20-40mm in Apayao, Cagayan, the rest 024 of Ilocos region, Benguet, Kalinga and Central Luzon re will likely while the rest of the country will likely have a 20-80mm pt in Samar rainfall deficit.

n Mindanao

where slightly warmer to warmer than average temperature is expected

GEFS Week-2 T2m Anomaly

### **Probability to Exceed 25mm**

- High to very high over most parts of Luzon and Mindanao;
- Moderate to high over the rest of the country.

temperature.

### **zm** remperature Week 2: J

Cooler than average surface air te experienced in most parts of Northern . Cotabato and Zamboanga Peninsula wh will likely have slightly warmer to warmer than average surface air

### **Probability to Exceed 50mm**

- Moderate to high over Northern and Central Luzon and most of Mindanao;
- Low to moderate over the rest of the country.
