

## ECMWF Real-time Products Information

This document outlines key points related to the provision, purchase, and use of ECMWF real-time Products. This document should be read in conjunction with the ECMWF Product Distribution Rules.

### Open & free products

The following Valid real-time Products are available under the Creative Commons CC-BY-4.0 licence (<https://creativecommons.org/licenses/by/4.0/legalcode>) and are free of information cost. However, if delivered by ECMWF Services (such as ECMWF Production Data Store (ECPDS)), the products may be subject to Service Charges:

- WMO Essential: <https://www.ecmwf.int/en/forecasts/datasets/wmo-essential>
- ECMWF Open data: <https://www.ecmwf.int/en/forecasts/datasets/open-data>

For the aforementioned real-time Products, you may:

- **Share** — copy and redistribute the material in any medium or format
- **Adapt** — remix, transform, and build upon the material for any purpose, even commercially.

You must:

- **Attribute** — You must give appropriate credit, provide a link to the license, and indicate if changes were made. You may do so in any reasonable manner, but not in any way that suggests the licensor endorses you or your use.
- **Not enforce additional restrictions** — You may not apply legal terms or technological measures that legally restrict others from doing anything the license permits.

### Products that are NOT open and free

Any real-time Product that is **not** listed above is subject to the ECMWF Standard Licence Agreement contained within this document.

Under the ECMWF Standard Licence Agreement, Service Providers may:

- **Create, distribute and broadcast** Non-Retrieveable Value Added Services to any user, including Service providers
- **Create and distribute** Retrieveable Value Added Services to End Users only

You must:

- **Attribute** — You must give appropriate credit, according to Article 8 of the ECMWF Standard Licence Agreement, but not in any way that suggests the licensor endorses you or your use of the Products.

You must not:

- **Redistribute** — ECMWF prohibits the redistribution of Valid real-time Products, except for where permitted according to your Licence type and the relevant articles (i.e. to Contractors and Subsidiaries).

ECMWF has prepared **Guidelines for the Interpretation of the ECMWF Standard Licence Agreement** which should be read in conjunction with the ECMWF Standard Licence Agreement <https://www.ecmwf.int/en/forecasts/access-forecasts/licences-available/guidelines-interpretation-rules-and-standard>

Article 15.

Waiver

If a party fails to enforce, or delays in enforcing, an obligation of the other party, or fails to exercise, or delays in exercising, a right under this agreement, that failure or delay will not affect its right to enforce that obligation or constitute a waiver of that right. Any waiver of any provision of this agreement will not, unless expressly stated to the contrary, constitute a waiver of that provision on a future occasion.
