SUPPLEMENTAL / BID BULLETIN
Addendum No. 2021-001EPA-02

Subject: **Supply, Delivery, Installation, Testing and Commissioning of 37 Automatic Weather Stations**

This Supplemental/Bid Bulletin is being issued to all prospective bidders to amend and/or modify the previous answer of the written clarificatory questions (SBB No. 2021-001EPA-01; Query No. 2) submitted by the prospective bidders, to wit:

Query from **PT Cerna Corporation**

Question(s)	PAGASA BAC Answer(s)
2. For the FAT and Technical Training some of these are usually conducted abroad in coordination with Campbell Scientific. What if the country where the FAT is to be conducted does not allow entry of foreigners due to pandemic protocols? Can we consider FAT/Training to be conducted locally or virtually?	There is no FAT that will be conducted, only FTT. The FTT can be conducted on a later date within the duration of the project implementation wherein travel restrictions would have been lifted because of the availability of a vaccine. If it will not be permissible by that time, only then would PAGASA consider conducting the FTT locally or on virtual method.

This shall form an integral part of the Bid Documents.

For guidance and information of all participating bidders.

LANDRICO U. DALIDA, JR. Ph.D.
Chairperson, PAGASA-BAC
