

Tropical Cyclone Pepito 48 Hour Forecast

Philippine Atmospheric Geophysical
and Astronomical Services
Administration

Storm Surge Warning #01

Tropical Cyclone Pepito
Issued: 2:00 AM, Friday
November 15, 2024

Storm Surge Warning #01

A MODERATE to HIGH risk of storm surge may occur within the next 48-hours. There is a possibility of inundation due to rising sea water along with high waves in the low lying coastal communities in the municipalities of:

See Attached List

Recommended Action

Residents living in the low-lying coastal communities are still advised to:

- > Stay away from the coast or beach;
- > Cancel all marine activities;
- > Be aware and follow the latest updates from PAGASA

NOTE: Inundation / flood depth due to storm surge depends on the topography of the area.
