

Typhoon Marce 48 Hour Forecast

Philippine Atmospheric Geophysical
and Astronomical Services
Administration

Storm Surge Warning #08

Typhoon Marce
Issued: 8:00 AM, Thursday
November 7, 2024

Storm Surge Warning #08

A HIGH risk of storm surge may occur within the next 48-hours.

There is a possibility of life-threatening inundation from rising sea water along with high waves in the low lying coastal communities in the municipalities of:

See Attached List

Recommended Action

Residents living in the low-lying coastal communities are still advised to:

- > Stay away from the coast or beach;
- > Cancel all marine activities;
- > Be aware and follow the latest updates from PAGASA

NOTE: Inundation / flood depth due to storm surge depends on the topography of the area.

STORM SURGE INFORMATION
STORM SURGE: WARNING #08
FOR: TY MARCE

(Valid until the next storm surge information to be issued at 2 PM today)

| Estimated Storm Surge Heights | Provinces | Low-lying Coastal Areas of: | IMPACTS | ADVICE/ Actions to Take |
|--------------------------------------|---------------------|--|---|--|
| 1.0 - 2.0 meters | ISABELA | DINAPIGUE DIVILACAN MACONACON PALANAN | MINIMAL to MODERATE damage to communities, coastal/marine infrastructures and disruptions to all marine-related activities. | All marine activities must be cancelled.
