| e. Establishment of Early Warning and Response System for Disaster Mitigation in Metro Manila (Pasig- Marikina River Basin) KOICA | | (9) | PAGASA have restored the PAGASA-MMDA link using microwave radio & the data from MMDA-EFCOS system are available at HMD Operation Center. The establishment of water level sensor gauge height & warning assessment levels were done on October 1-11, 2012 and was applied to the present KOICA system set-up. Three different siren sounds applied in public address system are available. PAGASA is coming up with integrated monitoring network of existing and newly completed Flood Early Warning System for the Greater Metro Manila Area. Once the system is implemented, PAGASA in coordination with the LGU's and concerned government agencies will conduct intensive public information drive and flood drills. | (5) | (6) |
