TROPICAL CYCLONE BULLETIN NR. 11 Typhoon JULIAN

Issued at 2:00 PM, 29 September 2024

Valid for broadcast until the next bulletin at 5:00 PM today.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 11 issued at 2:00 PM today for the heavy rainfall outlook due to Typhoon JULIAN.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Moderate to significant impacts** from storm-force winds are possible within any of the localities where Wind Signal No. 3 is hoisted.
- **Minor to moderate impacts** from strong winds are possible within any of the localities where Wind Signal No. 2 is hoisted.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The highest Wind Signal that may be hoisted during the occurrence of JULIAN is **Wind Signal No. 4**.

Furthermore, the wind flow coming towards the circulation of Typhoon JULIAN may also bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today (29 September):** Aurora, CALABARZON, Romblon, and Bicol Region
- **Tomorrow (30 September):** Pangasinan, Zambales, Bataan, Aurora, Quezon, Romblon, and Bicol Region.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

A **Gale Warning** is hoisted over the northern and eastern seaboard of Northern Luzon. **Sea travel is risky for small seacrafts, including all types of motorbancas.** For more information, refer to Gale Warning No. 3 (Intermediate) issued at 11:00 AM today.

Very rough sea condition over the following coastal waters:

- **Up to 9.0 m** over the seaboard of Batanes
- **Up to 7.0 m** over the seaboard of Babuyan Islands
- Sea travel is risky for most types or tonnage of vessels. Mariners of these vessels are advised to remain in port or seek safe shelter or harbor.

Rough sea condition over the following coastal waters

- **Up to 4.5 m** over the northern seaboard of mainland Cagayan and the northern seaboard of Ilocos Norte
- **Up to 3.5 m** over and the remaining seaboard of Cagayan and the seaboard of Isabela
- **Up to 3.0 m** over the seaboard of the northern portion of Aurora
- Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels

Moderate sea condition over the following coastal waters:

- **Up to 2.5 m** over the remaining seaboard of Ilocos Norte
- Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.

TROPICAL CYCLONE BULLETIN NR. 11
Typhoon JULIAN

Issued at 2:00 PM, 29 September 2024

Valid for broadcast until the next bulletin at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK

- JULIAN is forecast to move generally west northwestward to northwestward from today through Tuesday (1 October) morning towards the Batanes-Babuyan Islands area, before accelerating north to north northeastward over the waters east of Taiwan on Tuesday afternoon onwards. On the track forecast, a landfall or close approach scenario by tomorrow (30 September) over Batanes and/or Babuyan Islands is highly likely.
- JULIAN is forecast to continue intensifying over the next 24-36 hours as it moves towards **Batanes and/or Babuyan Islands**. Considering the recent trend in its intensification, **the possibility of reaching super typhoon category is not ruled out.**

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
