TROPICAL CYCLONE BULLETIN NR. 19
Tropical Storm EMONG (CO-MAY)

Issued at 11:00 PM, 25 July 2025

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to **Weather Advisory No. 42 issued at 11:00 PM today** for the heavy rainfall outlook due to EMONG and the Southwest Monsoon enhanced by EMONG.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The enhanced Southwest Monsoon will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Luzon (areas not under Wind Signals), Visayas, and Dinagat Islands
- **Tomorrow (26 July) and Sunday (27 July):** Batanes, Babuyan Islands, Ilocos Region, Cordillera Administrative Region, Nueva Vizcaya, Quirino, Aurora, Zambales, Bataan, Rizal, Quezon, Cavite, Batangas, Occidental Mindoro, Oriental Mindoro, Palawan, Romblon, Bicol Region, Western Visayas, Northern Samar, and Negros Occidental.

TROPICAL CYCLONE BULLETIN NR. 19
Tropical Storm EMONG (CO-MAY)

Issued at 11:00 PM, 25 July 2025

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the seaboard of Northern Luzon. Refer to Gale Warning No. 6 issued at 5:00 PM today.

24-Hour Sea Condition Outlook

Forecast wave heights are not related to storm surge heights.

Up to high seas over the following coastal waters:

- **Up to 5.5 m:** The seaboard of Batanes and Babuyan Islands; the northern seaboard of mainland Cagayan.
- **Up to 4.5 m:** The remaining seaboard of Cagayan; the seaboard of Isabela.
- **Sea travel is risky all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboard of Ilocos Norte, Ilocos Sur, La Union, Pangasinan, and Zambales; the western seaboard of Bataan and Occidental Mindoro including Lubang Islands.
- **Up to 3.5 m:** The northeastern seaboard of Aurora; the western seaboard of Cavite, Batangas, and Palawan including Calamian Islands.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The seaboard of Pampanga, Bulacan, Metro Manila, Marinduque, Kalayaan Islands, Cuyo Islands, Cagayancillo Islands, and Antique; the remaining seaboard of Bataan, Aurora, Cavite, Batangas, and Calamian Islands; the southern seaboard of Quezon; the eastern seaboard of Oriental Mindoro; the northern and western seaboard of Romblon; the western seaboard of Aklan including Caluya Islands.
- **Up to 2.0 m:** The seaboard of Northern Samar and Surigao del Sur; the remaining seaboard of Bicol Region, Quezon, Oriental Mindoro, Palawan, and Romblon; the southwestern seaboard of Negros Occidental and Iloilo; the western seaboard of Guimaras; the eastern seaboard of Catanduanes and Davao Oriental.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

- EMONG will accelerate generally northeastward and exit the Philippine Area of Responsibility tomorrow morning.
- EMONG will continue to weaken throughout the forecast period due to increasing unfavorable environment. It will likely degenerate into a remnant low tomorrow evening or Sunday (27 July) morning while entering the East China Sea. However, a slightly faster weakening trend is not ruled out.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
