TROPICAL CYCLONE BULLETIN NR. 1

Tropical Depression BISING

Issued at 5:00 AM, 04 July 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

TRACK AND INTENSITY OUTLOOK

- Tropical Depression BISING will continue moving generally westward slowly in the next 12 hours and may exit the Philippine Area of Responsibility today. Afterwards, it will turn northeastward. Re-entry to the western boundary of the PAR is possible by Sunday (06 July). The forecast track is highly uncertain and a possible southward shift resulting to hoisting of Wind Signal No. 2 over Batanes and Babuyan Islands is not ruled out.
- BISING is forecast to intensify into a tropical storm by Saturday afternoon or evening and may further intensify as it moves over the sea south of Taiwan.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
