HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Forecast wave heights are not related to storm surge heights.

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboards of Batanes and Babuyan Islands; the northern seaboard of Ilocos Norte
- **Up to 3.0 m:** The seaboards of mainland Cagayan and Isabela; the western seaboards of Ilocos Norte, Ilocos Sur, Pangasinan, and Zambales
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The western seaboards of Bataan, Lubang Islands, Occidental Mindoro, Palawan including Calamian Islands, and Kalayaan Islands; the northeastern seaboard of Aurora
- **Up to 2.0 m:** The remaining seaboards of Bataan, Lubang Islands, Occidental Mindoro, Palawan, and Aurora; the northern and eastern seaboards of Polillo Islands, Camarines Norte, Catanduanes, and Northern Samar; the eastern seaboards of Sorsogon, Surigao del Sur, and Davao Oriental; the western seaboards of Batangas, Antique, and Guimaras; the southern seaboards of Oriental Mindoro, Marinduque and Quezon; the southwestern seaboard of Iloilo; the northern and western seaboards of Ticao Island and Romblon; the seaboards of Camarines Sur.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

- EMONG is forecast to weaken into a remnant low today while over the East China Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

With this development and unless re-entry occurs, this is the final tropical cyclone bulletin. Succeeding updates will be incorporated in the 24-Hour Public Weather Forecast issued at 4:00 sssAM and 4:00 PM daily.
