

TROPICAL CYCLONE BULLETIN NR. 24
Severe Tropical Storm KRISTINE (TRAMI)

Issued at 2:00 AM, 25 October 2024

Valid for broadcast until the next bulletin at 5:00 AM today.

“KRISTINE” TURNS NORTHWESTWARD OVER THE SEA WEST OF ILOCOS REGION.

Location of Center (1:00 AM)

The center of Severe Tropical Storm KRISTINE was estimated based on all available data at **115 km West of Bacnotan, La Union (16.7°N, 119.3°E)**

Intensity

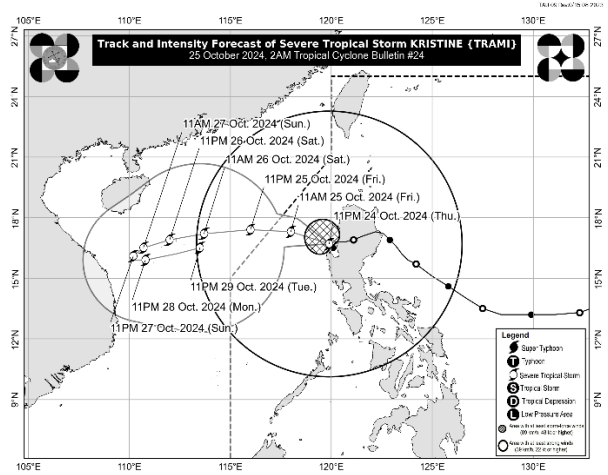

Maximum sustained winds of **95 km/h** near the center, gustiness of up to **115 km/h**, and central pressure of **985 hPa**

Present Movement

Northwestward at 10 km/h

Extent of Tropical Cyclone Winds

Strong to storm-force winds extend outwards up to **730 km** from the center

TROPICAL CYCLONE BULLETIN NR. 24
Severe Tropical Storm KRISTINE (TRAMI)

Issued at 2:00 AM, 25 October 2024

Valid for broadcast until the next bulletin at 5:00 AM today.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 25 issued at 2:00 AM today for the heavy rainfall outlook due to “KRISTINE”.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minor to moderate impacts** from gale-force winds are possible within any of the localities where Wind Signal No. 2 is hoisted
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore, the wind flow coming towards the circulation of KRISTINE, the northeasterly windflow, and southwesterly windflow will also bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today (25 October):** MIMAROPA, Bicol Region, Visayas, Dinagat Islands, Surigao del Norte, Northern Mindanao, Zamboanga Peninsula, BARMM, SOCCSKSARGEN, and Davao Region.
- **Tomorrow (26 October):** Palawan, Siquijor, Bohol, Southern Leyte, Zamboanga del Norte, Camiguin, Dinagat Islands, and Surigao del Norte.
- **Sunday (27 October):** Palawan, Romblon, Visayas, Siquijor, Bohol, Southern Leyte, Zamboanga del Norte, Camiguin, Dinagat Islands, and Surigao del Norte.

OTHER HAZARDS AFFECTING LAND AREAS

Coastal Inundation

There is a **minimal to moderate risk of storm surge with peak heights of around 1.0 to 2.0 m above normal tide levels** in the next 48 hours over the low-lying or exposed coastal localities of Ilocos Sur, La Union, Pangasinan, and Zambales. **For more information, refer to Storm Surge Warning No. 11 issued at 8:00 PM yesterday.**

TROPICAL CYCLONE BULLETIN NR. 24
Severe Tropical Storm KRISTINE (TRAMI)

Issued at 2:00 AM, 25 October 2024

Valid for broadcast until the next bulletin at 5:00 AM today.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is hoisted over the seaboard of Luzon and the western and central seaboard of Visayas. For more information, refer to Gale Warning No. 10 issued at 5:00 PM yesterday.

24-Hour Sea Condition Outlook

- **Up to very rough or high seas over the following coastal waters:**
 - **Up to 7.0 m:** The seaboard of Zambales and Pangasinan
 - **Up to 6.0 m:** The remaining seaboard of Ilocos Region; the seaboard of Cagayan Valley and Bataan
 - **Up to 5.0 m:** The western seaboard of Occidental Mindoro and Calamian Islands; the seaboard of northern Aurora
 - **Up to 4.5 m:** The western seaboard of northern Palawan including Kalayaan Islands
 - **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**
- **Up to rough seas over the following coastal waters:**
 - **Up to 4.0 m:** The southern seaboard of Quezon, the remaining seaboard of MIMAROPA, the western and southern seaboard of Negros Occidental and Negros Oriental.
 - **Up to 3.5 m:** The remaining seaboard of Aurora, the seaboard of northern Quezon including Polillo Islands, Camarines Norte, and Catanduanes; the northern and eastern seaboard of Camarines Sur.
 - **Up to 3.0 m:** The remaining seaboard of Luzon and Visayas.
 - **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**
- **Up to moderate seas over the following coastal waters:**
 - **Up to 2.5 m:** The remaining seaboard of the country.
 - **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

- KRISTINE is forecast to move westward over the next 12 hours and exit the Philippine Area of Responsibility (PAR) region this afternoon.
- In the extended outlook, there is a developing forecast situation wherein KRISTINE will be looping over the West Philippine Sea on Sunday and Monday and move generally eastward towards the general direction of the PAR region. However, **this scenario heavily depends on the behavior of the tropical cyclone east of the PAR region.**
- KRISTINE is forecast to re-intensify as it moves over the West Philippine Sea. While it is likely that the tropical cyclone will remain a severe tropical storm in the next five days, the chance for it to be upgraded into a typhoon is not ruled out.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM today.
