TROPICAL CYCLONE BULLETIN NR. 25
Tropical Depression OFEL (USAGI)

Issued at 5:00 PM, 16 November 2024

Valid for broadcast until the next bulletin at 11:00 PM today.

TRACK AND INTENSITY OUTLOOK

OFEL is forecast to cross the southern portion of Taiwan and possibly emerge over the sea east of Taiwan within 12 hours. Furthermore, due to unfavorable environment and land interaction, OFEL may become a remnant low pressure area within the same period.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 PM today.
