| <b>1</b><br>Wind threat:<br><b>Strong winds</b> | <b>The eastern portion of Quirino</b> (Maddela, Nagtipunan, Aglipay), <b>the southern portion of Nueva Vizcaya</b> (Alfonso Castaneda, Dupax del Sur, Dupax del Norte), <b>the eastern portion of Isabela</b> (Divilacan, San Mariano, San Guillermo, Jones, Echague, San Agustin, Ilagan City, Benito Soliven, City of Cauayan, Maconacon, Angadanan, Naguilian, Palanan, Dinapigue), <b>Aurora, the northern portion of Quezon</b> (General Nakar, Infanta, Real) <b>including Polillo Islands, and the northwestern portion of Camarines Norte</b> (Vinzons, Paracale, Jose Panganiban, Capalonga) <b>including Calaguas Islands.</b> | -       | -        |
|   | Warning lead time: <b>36 hours</b><br>Range of wind speeds: <b>39 to 61 km/h (Beaufort 6 to 7)</b><br>Potential impacts of winds: <b>Minimal to minor threat to life and property</b>  |         |          |

| HAZARDS AFFECTING LAND AREAS  |
|---|
| <p><b><u>Heavy Rainfall Outlook</u></b></p> <ul style="list-style-type: none"> <li>Typhoon AGHON is less likely to directly bring significant amount of rainfall within the next three days.</li> <li>The Southwesterly Windflow enhanced by this typhoon will bring moderate to heavy rains over Western Visayas and portions of MIMAROPA in the next two days. For more information, refer to Weather Advisory No. 2 for Southwesterly Windflow issued at 11:00 AM today.</li> </ul>                |
| <p><b><u>Severe Winds</u></b></p> <p>The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.</p> <ul style="list-style-type: none"> <li><b>Minimal to minor impacts</b> from strong winds are possible within any of the areas under Wind Signal No. 1.</li> </ul> |

| HAZARDS AFFECTING COASTAL WATERS  |
|---|
| <ul style="list-style-type: none"> <li>Under the influence of AGHON, a Gale Warning is hoisted over the coastal waters of Cagayan (eastern portion), Isabela, Aurora, and the northern coastal waters of Quezon including Polillo Islands. <b>Sea travel is risky for small seacrafts, including all motorbancas of any type of tonnage.</b> For more information, refer to Gale Warning No. 5 issued at 5:00 PM today.</li> <li>Outside the Gale Warning areas, AGHON will bring moderate to rough seas (1.5 to 3.0 m) over the eastern coastal waters of Cagayan and the northern coastal waters of Bicol Region. <b>Mariners of motor bancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigating in these conditions, especially if inexperienced or operating ill-equipped vessels.</b></li> </ul> |

## TROPICAL CYCLONE BULLETIN NR. 27

### Typhoon AGHON (EWINIAR)

Issued at 5:00 PM, 27 May 2024

Valid for broadcast until the next bulletin at 11:00 PM today.

#### TRACK AND INTENSITY OUTLOOK

- On the track forecast, Typhoon AGHON will move generally northeastward over the Philippine Sea for the entirety of the forecast period. It may exit the Philippine Area of Responsibility (PAR) on Wednesday afternoon or evening as a typhoon.
- AGHON will continue to intensify over the next 24 to 36 hours as it moves northeastward over the Philippine Sea. A weakening trend may begin on mid or late Wednesday as the typhoon begins interacting with the mid-latitude environment and undergo post-tropical transition.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 PM today.
