

TROPICAL CYCLONE BULLETIN NR. 32

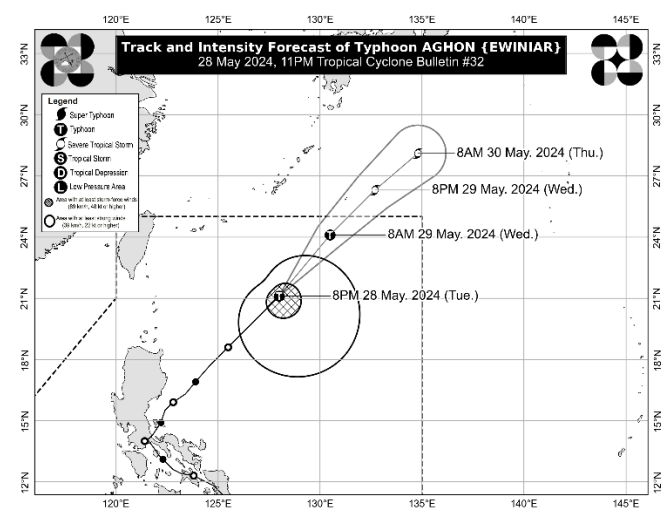

Typhoon AGHON (EWINIAR)

Issued at 11:00 PM, 28 May 2024

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

TYPHOON "AGHON" CONTINUES TO MOVE NORTHEASTWARD OVER THE PHILIPPINE SEA

Location of Center (10:00 PM)
The center of Typhoon AGHON was estimated based on all available data 690 km East Northeast of Basco, Batanes or 695 km East of Itbayat, Batanes (21.6°N, 128.5°E)
Intensity
Maximum sustained winds of 130 km/h near the center, gustiness of up to 160 km/h , and central pressure of 970 hPa
Present Movement
Northeastward at 30 km/h
Extent of Tropical Cyclone Winds
Strong to typhoon-force winds extend outwards up to 480 km from the center

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

No Wind Signal hoisted at this time.

TROPICAL CYCLONE BULLETIN NR. 32

Typhoon AGHON (EWINIAR)

Issued at 11:00 PM, 28 May 2024

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

- Typhoon AGHON is unlikely to directly bring significant amount of rainfall within the next three days.
- The Southwesterly Windflow partly influenced by AGHON will bring moderate to heavy rains over the western portions of Central Luzon and MIMAROPA in the next two days. For more information, refer to Weather Advisory No. 5 issued at 11:00 PM today.

Severe Winds

The Southwesterly Windflow partly influenced by AGHON will bring occasional gusty conditions in the next three days over the following areas, especially in coastal and upland/mountainous localities exposed to winds:

- **Tonight to tomorrow evening:** Batanes, Ilocoso Region, Zambales, Bataan, northern Aurora, southern mainland Quezon, Polillo Islands, northern Palawan including Kalayaan, Calamian, and Cuyo Islands, Lubang Islands, Romblon, Marinduque, and Camarines Norte
- **Tomorrow evening to Friday evening:** Batanes, Ilocos Region, Zambales, Bataan, Lubang Islands, Romblon, and Marinduque

HAZARDS AFFECTING COASTAL WATERS

The Southwesterly Windflow partly influenced by AGHON and the Frontal System will bring moderate to rough seas (1.0 to 3.0 m) over the coastal waters of Batanes, Babuyan Islands, mainland Cagayan (northern coast), and Ilocos Norte (northern coast). **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigating in these conditions, especially if inexperienced or operating ill-equipped vessels.**

TRACK AND INTENSITY OUTLOOK

- On the track forecast, Typhoon AGHON will move generally northeastward over the Philippine Sea for the entirety of the forecast period and exit the Philippine Area of Responsibility (PAR) tomorrow morning or afternoon.
- AGHON is forecast to enter a period of weakening by tomorrow as it begins to interact with the mid-latitude environment and undergo post-tropical transition.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
