

**TROPICAL CYCLONE BULLETIN NR. 9**  
**Typhoon MARCE (YINXING)**

Issued at 5:00 AM, 06 November 2024

Valid for broadcast until the next bulletin at 8:00 AM today.

**“MARCE” MAINTAINS ITS STRENGTH AS IT MOVES NORTHWESTWARD OVER THE PHILIPPINE SEA.**

**Location of Center (4:00 AM)**

The center of Typhoon MARCE was estimated based on all available data at **345 km East of Tuguegarao City, Cagayan (17.9°N, 125.0°E)**

**Intensity**

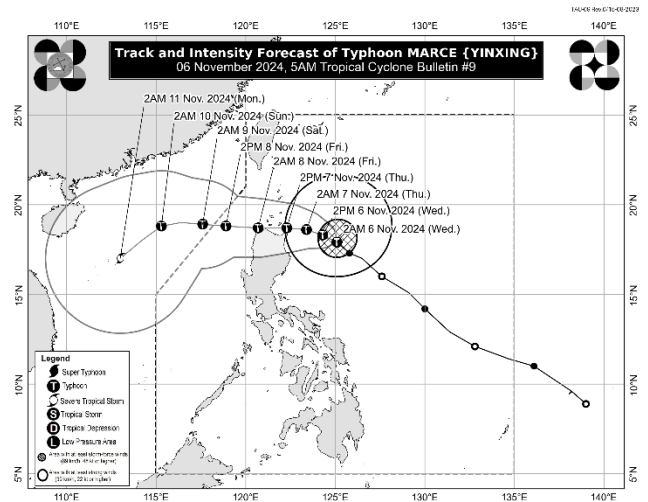

Maximum sustained winds of **140 km/h** near the center, gustiness of up to **170 km/h**, and central pressure of **960 hPa**

**Present Movement**

**Northwestward at 15 km/h**

**Extent of Tropical Cyclone Winds**

**Strong to typhoon-force winds** extend outwards up to **400 km** from the center

## TROPICAL CYCLONE BULLETIN NR. 9 Typhoon MARCE (YINXING)

Issued at 5:00 AM, 06 November 2024

Valid for broadcast until the next bulletin at 8:00 AM today.

### HAZARDS AFFECTING COASTAL WATERS

**A Gale Warning is hoisted over the seaboard of Northern Luzon and the eastern seaboard of Central Luzon.** For more information, refer to Gale Warning No. 4 issued at 5:00 AM today.

#### 24-Hour Sea Condition Outlook

- **Up to very rough or high seas over the following coastal waters:**
  - **Up to 8.0 m:** The seaboard of northeastern mainland Cagayan and the eastern portion of Babuyan Islands
  - **Up to 7.0 m:** The remaining seaboard of Cagayan and Babuyan Islands
  - **Up to 6.0 m:** The northern seaboard of Ilocos Norte; the seaboard of northeastern Isabela
  - **Up to 5.5 m:** The remaining seaboard of Ilocos Norte; the seaboard of Ilocos Sur; the western seaboard of Pangasinan; the remaining seaboard of Isabela
  - **Up to 4.5 m:** The remaining seaboard of Ilocos Region; the seaboard of northern Aurora
  - **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**
- **Up to rough seas over the following coastal waters:**
  - **Up to 4.0 m:** The seaboard of northern Zambales
  - **Up to 3.5 m:** The northern and eastern seaboard of Polillo Islands; the seaboard of Camarines Norte; the northern seaboard of Catanduanes
  - **Up to 3.0 m:** The northern seaboard of Camarines Sur; the eastern seaboard of Catanduanes; the remaining seaboard of Zambales
  - **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**
- **Up to moderate seas over the following coastal waters:**
  - **Up to 2.5 m:** The eastern seaboard of Albay and Sorsogon; the northern and eastern seaboard of Northern Samar and Eastern Samar; the western seaboard of Bataan and Lubang Islands; the seaboard of Kalayaan Islands
  - **Up to 2.0 m:** The western seaboard of Palawan including Calamian Islands; the eastern seaboard of Camarines Sur, Eastern Samar, Dinagat Islands, Surigao del Sur, and Davao Oriental.
  - **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

### TRACK AND INTENSITY OUTLOOK

- MARCE is forecast to move generally west northwestward today (6 November) as it decelerates over the Philippine Sea east of Northern Luzon. It is then forecast to turn westward tomorrow (7 November) as it approaches Babuyan Islands and northern Cagayan. On the forecast track, MARCE will make landfall or pass close to Babuyan Islands or the northern portion of mainland Cagayan from Thursday afternoon to Friday (8 November) early morning. MARCE may exit the Philippine Area of Responsibility (PAR) region on Friday evening.
- MARCE is expected to continue intensifying and may reach its peak intensity today before it makes landfall or pass close to Babuyan Islands or Cagayan tomorrow.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 8:00 AM today.
