# TROPICAL CYCLONE BULLETIN NR. 3 Tropical Depression ROMINA

Issued at 5:00 PM, 22 December 2024 Valid for broadcast until the next bulletin at 8:00 PM today.

#### "ROMINA" CONTINUES TO MOVE TOWARDS THE SOUTHERN KALAYAAN ISLANDS

## Location of Center (4:00 PM)

The center of Tropical Depression ROMINA was estimated based on all available data over the coastal waters of Rurok Island, Kalayaan, Palawan (OUTSIDE PAR) (9.4°N, 114.5°E).

#### Intensity

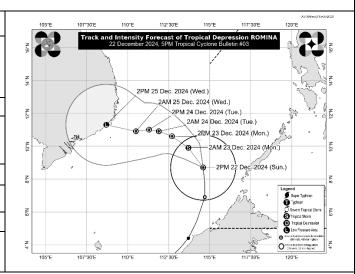

Maximum sustained winds of 55 km/h near the center, gustiness of up to 70 km/h, and central pressure of 1002 hPa

#### **Present Movement**

#### Northward at 35 km/h

## **Extent of Tropical Cyclone Winds**

Strong winds extend outwards up to 220 km from the center

#### TRACK AND INTENSITY FORECAST

| 1                                              | The southern portion of Palawan (Balabac) and Kalayaan Islands                                                                                             | -       | -        |  |  |  |  |  |
| Wind threat:<br>Strong<br>winds                | Warning lead time: 36 hours Range of wind speeds: 39 to 61 km/h (Beaufort 6 to 7) Potential impacts of winds: Minimal to minor threat to life and property |         |          |  |  |  |  |  |

#### OTHER HAZARDS AFFECTING LAND AREAS

#### **Heavy Rainfall Outlook**

Refer to Weather Advisory No. 27 issued at 5:00 PM today for the heavy rainfall outlook due to Shear Line and Tropical Cyclone ROMINA

## **Severe Winds**

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

Minimal to minor impacts from strong winds are possible within any of the areas under Wind Signal No. 1.

The highest Wind Signal which may be hoisted during the occurrence of ROMINA is Wind Signal No. 2.

# TROPICAL CYCLONE BULLETIN NR. 3 Tropical Depression ROMINA

Issued at 5:00 PM, 22 December 2024 Valid for broadcast until the next bulletin at 8:00 PM today.

#### HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is hoisted over the northern and western seaboards of Northern Luzon and the western seaboard of Southern Luzon. Refer to Gale Warning No. 10 issued at 5:00 PM today for the details.

#### 24-Hour Sea Condition Outlook

Note: These are forecast sea condition over the coastal waters and not related to storm surge heights or inundation.

#### Up to very rough seas over the following coastal waters:

- Up to 4.5 m: The seaboards of Batanes, Babuyan Islands, Ilocos Norte, and Kalayaan Islands
- Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.

#### Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The northern and eastern seaboards of Polillo Islands and Catanduanes; the seaboards of Camarines Norte; the northern seaboard of Camarines Sur; the eastern seaboard of mainland Cagayan.
- **Up to 3.5 m:** The seaboards of Isabela, Aurora, and northern mainland Quezon; the eastern seaboards of Albay and Sorsogon; the northern and eastern seaboards of Northern Samar; the remaining seaboard of Ilocos Region and mainland Cagayan.
- Up to 3.0 m: The western seaboard of Lubang Islands; the eastern seaboard of Eastern Samar
- Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.

#### Up to moderate seas over the following coastal waters:

- **Up to 2.5 m**: The seaboards of northern mainland Palawan, Calamian Islands, and Cuyo Islands; the eastern seaboards of Camarines Sur, Dinagat Islands, and Surigao del Sur; the remaining seaboard of Catanduanes; the western seaboards of Zambales, Bataan, Batangas, Occidental Mindoro, mainland Palawan, and Antique.
- Up to 2.0 m: The eastern seaboards of Davao Oriental and Davao Occidental; the eastern seaboard of mainland Quezon.
- Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.

#### TRACK AND INTENSITY OUTLOOK

- Although currently moving northward, ROMINA is forecast to turn northwestward or west northwestward within the forecast period. On the forecast track, ROMINA may pass near the southern portion of the Kalayaan Islands area in the next 24 hours. It must be noted that a brief entry within the Philippine Area of Responsibility is not ruled out.
- ROMINA may briefly reach tropical storm category within the next 12 hours before weakening into a tropical depression for the
  rest of the forecast period.
- It must be emphasized that the track may still shift within the limit of the forecast confidence cone as the tropical cyclone continues to further organize.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.

The next tropical cyclone bulletin will be issued at 8:00 PM today.
