**GALE WARNING NR. 14 Final**

**For: Moderate to Strong winds associated with the Northeast Monsoon**

Issued at 05:00 AM Today, 09 January 2025

Moderate to Strong winds are prevailing or expected to affect the following areas:

Seaboards	Weather	Winds (km/h / kt)	Sea Condition	Wave Height
<p><b>THE EASTERN SEABOARD OF SOUTHERN LUZON</b></p> <p>(The northern coast of Camarines Norte [Calaguas Islands] and the northern coast of Catanduanes [Pandan])</p>	Cloudy skies with scattered rains and isolated thunderstorms	(41-55) / (22-30)	moderate to rough	2.5-3.7

Mariners of small seacrafts (including all motor bancas of any type or tonnage) are advised to take precautionary measures when venturing out to sea and, if possible, avoid navigating in these conditions.

Vessel masters, boat captains, ship owners / operators, and Coast Guard units concerned are advised to take appropriate measures to ensure safety of life at sea.

This is the final warning.
