**TROPICAL CYCLONE ADVISORY NR. 4**  
**Severe Tropical Storm “BEBINCA”**

Issued at 11:00 AM, 11 September 2024

Valid for broadcast until the next bulletin at 11:00 PM today.

**GENERAL OUTLOOK FOR THE FORECAST PERIOD**

- **Refer to Weather Advisory No. 2 issued at 11:00 AM today for the heavy rainfall outlook associated with the Southwest Monsoon enhanced by BEBINCA.**
- In the next 24 hours, the enhanced Southwest Monsoon will bring moderate to rough seas in the next 24 hours over the eastern seaboard of Mindanao (1.0 to 3.5 m), the western seaboard of Palawan including Kalayaan Islands, the western seaboard of Visayas (1.0 to 3.0 m), the eastern seaboard of Palawan, the western seaboard of Mindanao, and the southern and eastern seaboard of Visayas (1.0 to 2.5 m). **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**
- Up to moderate seas are expected in the next 24 hours over the southern seaboard of Mindanao (up to 2.0 m). **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**
- BEBINCA is forecast to turn generally north northwestward tonight, then northwestward tomorrow (13 September), then west northwestward on Saturday (14 September). On the track forecast, BEBINCA will enter the PAR region tomorrow afternoon or evening and exit the PAR region tomorrow late evening or Saturday morning. Throughout the forecast period, BEBINCA will remain far from the Philippine landmass.
- BEBINCA is forecast to intensify into a typhoon by tomorrow evening.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to continue monitoring for updates related to this tropical cyclone.

Unless there is an intermediate issuance, the next tropical cyclone advisory will be issued at 11:00 PM today.
